

Winibey Lopez

Caracas, Venezuela —————

ABOUT

Winibey was born in the city of Caracas, Venezuela. She holds a Master at IEBS University (Business School of Innovation and Entrepreneurs), Spain and Graduate Plastic Arts Mention Painting IUESAPAR, Venezuela. She has participated in various Collective and Individual exhibitions in my country of origin and internationally.

Winibey's pictorial work explores daily scenarios of everyday life represented in portraits and their environment; of people mostly women who come from photo albums, public archives that, without visual fragmentation, suggest personal chronicles. The historiographies of Winibey's paintings are personal reflections, historical narratives of portraits that tell their own stories giving a visual value to the woman who has been interpreted countless times for her power in history. Her paintings include portraits of women with intimate items or objects; in rooms or in stereo spaces where floral patterns of wallpaper underlie that collect anecdotally emotional brushstrokes.
