TINA PSOINOS

JJ Galloway Studios

Multidisciplinary Artist and Fine Art Photographer Tina Psoinos's extensive body of work showcases an alternative view of the world she sees, one that blurs the borders of reality and imagination.

Intrigued by the ephemeral, ever-changing nature of the street art scene, Psoinos creates pop art using mixed traditional and street art techniques with urban art aesthetics while sneaking in personal references.

Her portfolio includes a number of ongoing series that range from minimal to very complex imagery. Works explore female rights, empowerment and equality through pop culture, as well as love through social media. Drawing on powerful imagery, she uses these concepts to also create and develop inspired site-specific installations.

Based in NYC, Psoinos has won numerous awards for her artistry. Her work is in private and public collections around the world.

Don't worry about sounding professional. Sound like you. There are over 1.5 billion websites out there, but your story is what's going to separate this one from the rest. If you read the words back and don't hear your own voice in your head, that's a good sign you still have more work to do.
